

Welcome to DBR BV

DBR has a reliable reputation since 1965 for producing well engineered packages of diesel- and gas generator sets, pumps and diesel pump sets for the offshore, shipping, yachting and industry. The reliability is realized through the use of expertise and experience of our employees, test facilities and a good co-operation with our suppliers. You can rely by DBR on our 24-hour service and extensive spare parts department

Products

Generator sets

DBR Generator sets has over 40 years experience in the market in manufacturing of reliable and qualitative "custom build" packages for the offshore, shipping, and the yacht industry.

Pump sets

DBR BV has built up over 40 years a reputation as a manufacturer and supplier of reliable pumps and pump sets for the shipping, offshore, yachting, dredging, agriculture and industry.

E-motion sets

This range of generator is specially designed by DBR BV for yachts and mega yachts.

SDMO sets

DBR Generator sets is your qualified SDMO distributor and supplier in the Netherlands and worldwide. SDMO was founded in 1966 in France and will be the worldwide market leader and number 3 in the industrial generator market.
